What are OERs?

Open Educational Resources are any type of educational materials that are in the public domain or introduced with an open license.

...anyone can legally and freely copy, use, adapt and re-share them. OERs range from textbooks to curricula, syllabi, lecture notes, assignments, tests, projects, audio, video and animation.

www.unesco.org/new/en/communication-and-information/access-to-knowledge/open-educational-resources/what-are-open-educational-resources-oers/

How can you access OERs?

You just need a computer

and an Internet connection

Alphabet Created Oct 11, 2014 by Mallory Marshall

Unit: Identifying all letters of the alphabet, lowercase and uppercase
Persistent Issue: Why is it important to know all the letters of the alphabet?
Central question: How can choosing an animal with a certain letter of the alphabet, further their understanding of the alphabet?
Lesson 1: Grabber
<https://www.youtube.com/watch?v=KeryjGDPz0M/>

This video introduces each letter with an example of an animal to accompany that letter. The video contains many examples of animals that are identified by the first letter. The video outlines what the students are expected to do.

Central Question: How can choosing an animal with a certain letter of the alphabet, further their understanding of the alphabet? Understanding the alphabet is an important standard for students because the alphabet is the foundation for learning.

Lecture: Teachers give further examples of animals and their starting letters. Students are also allowed to ask any questions they may have about the standard. Students will also be expected to answer questions about letters and animals to make sure they are understanding the task.

Author: Mallory Marshall
Subject: English Language Arts
Provider: OER Commons
Provider Set: Open Author Resources

Level: Lower Primary
Grades: Kindergarten, Grade 1

Language: English
Material Type: Activities and Labs
Media Format: Text/HTML

Abstract: This is an activity for lower primary classes to help students learn about the alphabet.

Students are given a letter and are told to choose an animal that begins with the same letter.

Alphabet

Created Oct 11, 2016 by , Mallory Marshall

Unit: Identifying all letters of the Alphabet, lowercase and uppercase

Persistent Issue: Why is it important to know all the letters of the alphabet?

Central question: How can choosing an animal with a certain letter of the alphabet, further their understanding of the alphabet?

Lesson 1: Grabber

Add to My Resources

Description

In this activity students will practice one to one correspondence by pointing to each item as they say the number name and count. Self-check videos included. Modifications are included for assistance and extension. CCSS.MATH.CONTENT.K.CC.B.4.A When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object.

OK, it all sounds easy and interesting, but what if...

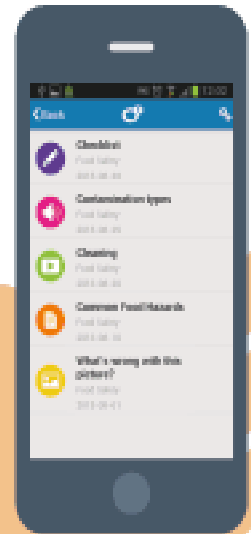

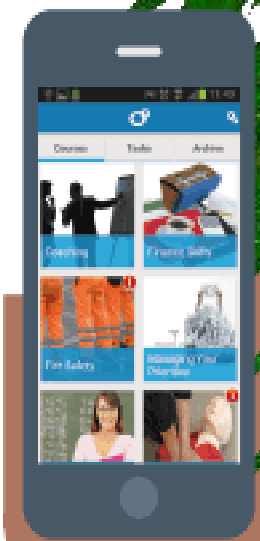

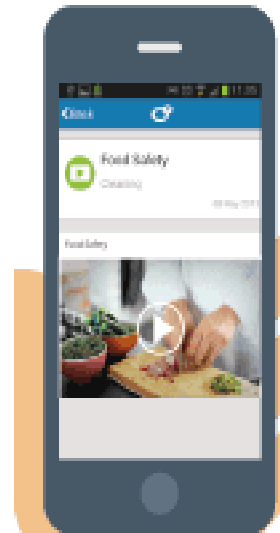

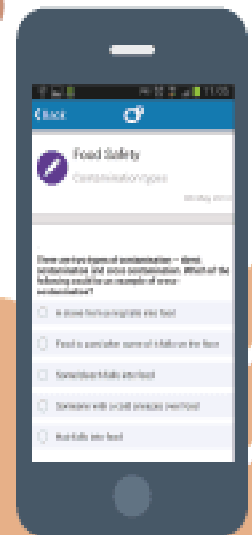

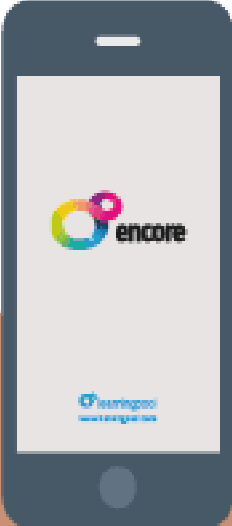

- my school hasn't got any/many computers?
- there is a lab, but it's never free?
- there's no Internet connection?
- the Internet connection is slow?!?

6

Turn to mobile learning devices

Why mobile devices for learning?

Because...

- learning can happen anytime, anywhere
- there are lots of (free) educational apps
- mobile devices are easier and lighter to carry
- students can listen, read, write, talk, play educational games, collaborate and interact with peers and teachers, find information of any kind
- tablets and smartphones facilitate students' different learning styles

BYOD

Bring Your Own Device

Which device for kids?

Prefer the ones that...

- are specifically made for them
- are packed with age-appropriate content
- incorporate **parental control**, to define exactly how much screen time your children can have and what they can and can't get up to.

Bring Your Own Device at school?!?

Il Ministro della Pubblica Istruzione

Prot. n. 30/dip./segr.

Roma, 15 marzo 2007

OGGETTO: linee di indirizzo ed indicazioni in materia di utilizzo di “telefoni cellulari” e di altri dispositivi elettronici durante l’attività didattica, irrogazione di sanzioni disciplinari, dovere di vigilanza e di corresponsabilità dei genitori e dei docenti.

FORBIDDEN!

La privacy a scuola

Temi in classe

Non lede la privacy l'insegnante che assegna ai propri alunni lo svolgimento di temi in classe riguardanti il loro mondo personale.

Sta invece nella sensibilità dell'insegnante, nel momento in cui gli elaborati vengono letti in classe, trovare l'equilibrio tra esigenze didattiche e tutela della riservatezza, specialmente se si tratta di argomenti delicati.

Cellulari e tablet

L'uso di cellulari e smartphone è in genere consentito per fini strettamente personali, ad esempio per registrare le lezioni, e sempre nel rispetto delle persone.

Spetta comunque agli istituti scolastici decidere nella loro autonomia come regolamentare o se vietare del tutto l'uso dei cellulari. Non si possono diffondere immagini, video o foto sul web se non con il consenso delle persone riprese. E' bene ricordare che la diffusione di filmati e foto che ledono la riservatezza e la dignità delle persone può far incorrere lo studente in sanzioni disciplinari e pecuniarie o perfino in veri e propri reati.

Stesse cautele vanno previste per l'uso dei tablet, se usati a fini di registrazione e non soltanto per fini didattici o per consultare in classe libri elettronici e testi on line.

www.garanteprivacy.it/web/guest/home/docweb/-/docweb-display/docweb/1922676

OGGETTO: Divieto di utilizzo dei cellulari e di altri dispositivi elettronici a scuola

In considerazione del reiterarsi di infrazioni da parte degli alunni e onde evitare ulteriori provvedimenti disciplinari, si ritiene doveroso ed opportuno ribadire che ai sensi del D.P.R. n.249/1998 (Statuto degli studenti e delle studentesse), della Direttiva ministeriale n. 30 del 15/3/2007 nonché del Regolamento di disciplina d'Istituto, è assolutamente vietato l'uso di cellulari e/o di altri dispositivi elettronici durante le attività didattiche.

La scuola garantisce, come è sempre avvenuto, la possibilità di una comunicazione reciproca tra le famiglie ed i propri figli per urgenti motivi, mediante l'uso dei telefoni degli uffici di presidenza e/o di segreteria.”

Per ovvie ragioni, il divieto di utilizzare il telefono cellulare, durante le attività di insegnamento e di apprendimento, vale anche per il personale docente, come già previsto da specifiche disposizioni ministeriali (C.M. n. 362 del 25 agosto 1998).

Un eventuale uso didattico del cellulare in classe deve essere autorizzato dal docente durante la propria ora di lezione.

**POLITICHE ATTIVE
PER IL BYOD
(BRING YOUR OWN DEVICE)**

La transizione verso il digitale della scuola prevede un solido investimento per la creazione di ambienti digitali negli spazi delle scuole, promuovendo al contempo una visione di "classe digitale leggera", perchè ogni aula sia quindi pronta ad ospitare metodologie didattiche che facciano uso della tecnologia.

La scuola digitale, in collaborazione con le famiglie e gli enti locali, deve aprirsi al cosiddetto BYOD (Bring Your Own Device), ossia a politiche per cui l'utilizzo di dispositivi elettronici personali durante le attività didattiche sia possibile ed efficientemente integrato.

Perchè ciò sia possibile, occorre che le politiche

di BYOD affrontino con decisione diversi temi, che includano la coesistenza sugli stessi dispositivi personali di occasioni sia di didattica, sia per la socialità; la sicurezza delle interazioni e l'integrazione tecnica dei dispositivi personali con la dotazione degli spazi scolastici; l'inclusività e i modelli di finanziamento per quelli personali.

Come già avviene in altri paesi, occorre bilanciare l'esigenza di assicurare un uso "fluidò" degli ambienti d'apprendimento tramite dispositivi uniformi, che garantiscano un controllato livello di sicurezza, con la possibilità di aprirsi a soluzioni flessibili, che permettano a tutti gli studenti e docenti della scuola di utilizzare un dispositivo, anche proprio.

A BYOD experience in an Italian primary school

Primaria in BYOD

Learning and playing

Why make *language* learning fun?

Because...

- kids learn more when they are actively engaged (and not enraged..)
- not every child processes verbal information in a *linear and sequential way* (using his left-hemisphere predominantly)
- *right brain techniques* involve pupils with music, images, visuals, drawing, creative activities and projects

Speech center

Writing

Logic

Memory

Art & Music

Creativity

Fantasy

Emotion

Left or right-brained?

Look at the chart and say the COLOUR not the word

YELLOW	BLUE	ORANGE
BLACK	RED	GREEN
PURPLE	YELLOW	RED
ORANGE	GREEN	BLACK
BLUE	RED	PURPLE
GREEN	BLUE	ORANGE

Left – Right Conflict

Your right brain tries to say the colour but your left brain insists on reading the word.

Language learning

Though we all tend to have one more dominant hemisphere, both hemispheres need to operate together as a "team".

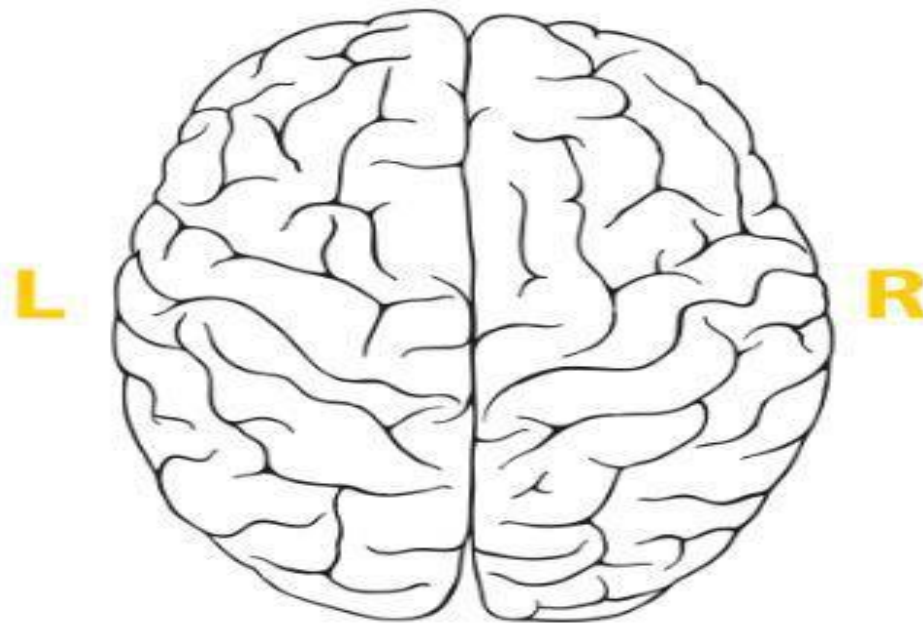

People can't understand or speak a language without both sides of the brain, and it's important to teach each side in the way that works best for it.

Just for fun: a brain-test...

SOMMER + SOMMER

Which side of your brain is more dominant?

Bitesize

Primary

Activities for primary schools in England, Northern Ireland, Scotland, Wales (KS1 and 2) and London (1st to 6th).

KS1

Literacy: 9 activities **Deep Sea Phonics**

Help Molly open the treasure chests by choosing the sounds that make up the words.

Maths: 13 activities **Safari Units**

Choose the right weights to help Molly balance the jungle animals on the scales.

Science: 11 activities **Garden Guru**

Molly is busy in the garden! Help her learn about how plants grow.

KS2

English: 20 activities **Spelling**

You're trapped! Choose the correctly spelt words to escape from the tower and help the Midnight Bride find a husband.

Also: **Big Babies, Trapped!**

Maths: 25 activities **Angles**

Control the Roboidz with your knowledge of angles in this exciting Mission 2110 game.

Also: **Mission 2110, Dick and Dom, Bamzooki**

Science: 25 activities **Microorganisms**

The UK is in the grip of a super-flu outbreak! Work out which microorganism is responsible.

Also: **MI High, Deadly 60, Sarah Jane Adventures**
